- **Web Frameworks:** Currently learning popular back-end technologies like **Node.js**, **Express.js** and **HTTP** along with **MongoDB**
- **Software Security:** Basic understanding of common web-based attacks like SQL Injection/Server-Side Scripting and their countermeasures
- **Source and Version Control:** Exceptional ability to collaborate with teammates using **Git** and **GitHub**
- **System Design:** Capable of creating visual designs for software with **UML** diagramming in Visual Paradigm

## Projects

---

### Portfolio Website:

- A fully responsive e-Portfolio showcasing my education and interests
- Built using **HTML**, **CSS**, and **JavaScript** optimized for all practical screen sizes

URL: <https://subtle-daffodil-08e972.netlify.app/>

### Online Store:

- A dynamic website for an online store that sells wide range of products related to gaming
- Built using self-written **JSON** data that is dynamically loaded into the page with **JavaScript**

URL: <https://cheerful-pudding-c80e00.netlify.app/>

### Blackjack (Console Application):

- A digital version of the famous card game 'Blackjack'
- Built using Object-Oriented features of **Python** and a reliable text-to-speech library

URL: <https://github.com/Amnish04/BlackJack>

## Education

---

**Advanced Diploma:** Computer Programming and Analysis  
**Seneca College of Applied Arts and Technology** - North York

Expected in 12/2023

- President's Honor List for [FALL 2021](#) and [WINTER 2022](#)
